NICHOLAS HOWARD

Houston's infamous Salon Nicholas provides its faithful with all the celebrity storyline that it deserves.

Nick the Barber "Barber to the Stars"

Salon Nicholas slogan: "real skills come natural"

Located on the Richmond strip, Salon Nicholas.com has created a legacy for itself as the barbershop to go to when an individual wants to get a fresh fade or an all star edge-up.

For years Nick has built his reputation by being professional, consistent and most of all reliable. Clients are serviced by appointment only. He guarantees a great cut and if not satisfied he promises to pay you for your time! It doesn't get better than that. Although the cast of characters in the chair may change from moment to moment, the two star studded main characters are always present: "Nick the Barber", and the precision of his clippers. Nick's creativity and vision of entrepreneurship lead him to Southeast Barber College after earning a Bachelor's Degree in Business Management from Prairie View A&M University. Later, these seemingly unrelated fields of education would merge to create a new world of opportunities for him. He is now the owner of a successful salon and the visionary of one of the top selling calendars on the market. Nick is responsible for the BarberDolls.com "sexiest female barber's ever" calendars.

Nick's celebrity clientele have included: Steve Francis, Chris Dismas, Moses Malone, Penny Hardaway, Tyrone Lue, Gary Payton, H Town, Bad Boy rapper Loon, and Carl Thomas. The notoriety of Salon Nicholas paved the way for "Nick the Barber" and his clippers to hit the road every Friday to the Texans' locker room to provide barbering services.
